DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 26-52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 26 lines 6-7 and claim 40 lines 6-7 claim “at least two signal portions of a signal portion sequence differing in frequency by a differential frequency”. It is unclear whether the signal portions of each signal portion sequence has a differential frequency.

Allowable Subject Matter

3. Claims 26-52 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. The following is a statement of reasons for the indication of allowable subject matter: Voles does not teach nor make obvious (claims 26 and 40) the differential frequency of the first signal portion sequence differing from the differential frequency of the second signal portion sequence.
